PERSONAL STATEMENT

Hello, my name is Jordan Taylor Johnson and I'm a recent graduate from the Art Institute of CA-Silicon Valley. I received my Bachelors of Science degree in Graphic Design. As a designer, I've grown to love everything about visual design/media. I've focused a lot on/but not limited to branding and marketing. I also do illustrations and digital paintings. During my final years in college I started to learn more about UX/UI design and motion graphics. I design all my projects with the intentions of giving my audience some type of feeling or an emotional connection. Thank you for your time!
